

A COMPREHENSIVE & HOLISTIC APPROACH TO PROTECT THE EVENT & TRADE SHOW INDUSTRY

CONSULTATION WITH OUR EXPERIENCED
MEDICAL EXPERTS
TO CREATE A CUSTOMIZED PLAN FOR YOU.

www.viral-ps.com

VPS aims to limit the spread of infections in the workplace, however we offer no guarantees against the contraction of infection.

VPS

VIRAL PROTECTIVE SERVICES

COMPLETE PREVENTATIVE MEASURES TO MAINTAIN CLEAN & HEALTHY EVENTS

Eventsafe will provide the most advanced COVID safeguards that serve your Attendees & Exhibitors. Protocols will vary based on the type of facility & will be further customized for each unique location. All protocols will be aligned with – & informed by – public health authorities, medical & industry experts.

LET'S START WITH A CONSULTATION

Meet with our medical experts to develop a customized plan for you. The consultation fee is based upon the size for your facility, & is fully refundable when you engage in a plan with us.

INFECTION PREVENTION TRAINING

To insure...“the show MUST go on”, our training was created by medical & event professionals. Not only is it the most comprehensive solution focused on the safety of the attendees & exhibitors, it is a **revenue generating opportunity** for you!

- A sponsorship opportunity for event managers & associations
- Interactive assessments to gauge comprehension
- Certification awarded upon completion

ONSITE COVID 19 RAPID TESTING AND SYMPTOM SCREENING

- We provide medically trained personnel to facilitate on-site testing
- We provide sufficient quantities of rapid-PCR tests for the duration of the event
- We provide handheld and thermal screening for small and large productions

PRE-SCREENING APP

Prior to stepping out into the event facility, screen attendees' daily symptoms & temperatures from the comfort & privacy of their own home or hotel room.

- A sponsorship opportunity
- Customize & brand to meet your needs

PROTECTIVE STRUCTURES

We have customized and off-the-shelf structures to help protect the event industry.

- Event registration & service desks
- For trade show exhibits

IN ADDITION WE ALSO PROVIDE:

PPE, Thermal Screening, Safety Signage, & Sanitation Services.

- Monitor & manage daily screening
- Have real-time insight into daily activity
- Track & manage facility hotspots
- Send workforce COVID-19 notifications
- Manage & fulfill PPE requests
- Request & manage location cleaning
- Customize users & locations

Putting America to work
one SymTem at a time

THERMAL SCREENING

see temperature The long term impacts of COVID-19 will be felt in many different ways, especially when it comes to future business practices. Are your customers safe? Are your employees at risk? EyeQ Monitoring can help.

see temperature

Elevated temperature can be an indicator of many viral infections, including COVID-19. To reduce the risk of exposure, non-contact methods for measuring temperature are preferred as a first line defense. Thermal monitoring solutions provide a safe way to keep your business running smoothly and safely. Professional design & installation of such solutions is critical, as incorrect angles, heights & other details can affect accuracy.

Note: Thermal monitoring solutions are not medical devices & are not designed for diagnosis, prevention or treatment of any disease or condition.

WE OFFER THREE THERMAL SCANNING SYSTEMS:

STAND-ALONE KIOSKS

- Everything you need is included in the box
- Same performance as a temporal thermometer, but with a safe social distance
- Specifically designed & calibrated for skin temperature measurement
- APIs available for access control, VMS and other network capabilities

INDIVIDUAL

- Camera connected to a computer
- Most effective at a fixed distance to a non-moving subject (standing behind a counter, for example)
- Visual indicator of temperature on computer, with alarm function

GROUP

- Camera with facial recognition & AI that can scan groups of moving subjects (people walking through a lobby, for example)
- Stand alone or integrate with alarm systems
- Images can be stored

GOLDSHIELD LONG-LASTING EVIDENCE-BASED ANTIMICROBIAL PROTECTION

These products are the world's only patented water-stabilized antimicrobial formulation that imparts a durable, antimicrobial protective shield to all surfaces, textiles, and skin.

LONG LASTING PROTECTION:

- Proven effective against Covid 19... etc.
- Proven to continuously kill up to 90 Days with ONE application
- 24/7 Protection once applied
- Attracts germs to surface like a magnet reducing contact & aerosol transfer

PATENTED AND PROVEN:

- 12 years fighting the toughest germs!
- Privately owned Patent
- (55+) evidence based studies
- (5) 3rd party peer reviewed publications

EASY TO USE

- Bonds with any indoor/outdoor surface including counters, cabinets, furniture, fabrics, metal, wood, etc.
- Used in hospitals, retail stores, public transport, public facilities, NASA & more
- Not affected by UV light
- Available in ready to use or concentrate from 1 gallon to 275 gallons
- Use with spray & wipe sprayer, specialty sprayers & electromagnetic sprayers
- Typically applied via our sanitation crews

SAFE**

- EPA & FDA registered
- Approved for hospitals
- Alcohol, methanol, bleach, odor free
- Not flammable, combustible, toxic or corrosive

AVAILABLE SIZES: 10 ml spray pens, 1.72 oz bottles, 2.54 oz bottles, 1 gallon bottles, 55 gallon drums, 275 gallon totes.

AVAILABLE DISPENSORS: Stainless steel screw-on foaming pump top, Manual wall mounted dispenser, Automatic wall mounted dispenser, Stand for automatic dispenser.

XANIGO DEFENDER ATOMIZER

This unit has undergone detailed 3rd party testing at Spray Analytics where the effectiveness was tested in detail. We have put the Defender up against electro-static sprayers that are 4 times the cost with equal or better results.

VIRAL PROTECTIVE SERVICES

WE CUSTOMIZE A PLAN THAT MEETS YOUR BUDGET AND NEEDS.

HAND WASHING STATIONS

QUADEL TITAN QUAD

- Unique common sink area services all for molded in spigots.
- Heavy duty roto molded body.
- Comes with a 3" service outlet.
- Standard with four soap dispensers & four way towel dispenser.
- No bags – no bladders.
- Includes both fresh water fill plug & fresh water drain.
- Large foot pump area on all four sides.
- Comes with single stack towel dispenser.
- Optional double stack towel dispenser available.
- Minimal plumbing for easy maintenance.

QUADEL TITAN II

Made out of heavy duty poly-ethylene low density plastic it sports dual towel & soap dispensers with room enough for two large bundles. Sturdy in design, it has a durable partition between both dispensers for added strength.

Remember when you last matched some paint with a chip of what you wanted at the paint store? The salesman placed the sample under a computer scan & matched the color perfectly. Well, the same holds true with the new; GottaGo Hand Wash.

Just send in a sample of the color that you'd like & Quadel will match it. Sturdy, user friendly, easy to service, & available in custom colors, the; GottaGo Hand Wash; is hard to top! 45 gal. capacity fresh water, & supporting 47 gal. gray water tank.

QUADEL TITAN II MINI

- Our Newest Handwashing Station
- Free standing sink rides inside portable restroom (for shipping & transporting purposes only)
- Easy to handle.
- Lightweight
- 49 gallon twin basin sink.
- Molded-in maintenance free spigots.
- Heavy duty molded body.
- Oversized towel dispenser.
- Extra large foot pump area.
- Fresh water drain.
- Dual soap dispensers.
- No bags – no bladders.
- Easy access for cleaning.

PROTECTIVE WALL COVERINGS

Safe Walls™ - By BrandArmor® Beautifully Anti-Bacterial & Anti-Microbial

eventsafe

What are SafeWalls™?

SafeWalls™ are a Type II wallcovering specially formulated for use in Healthcare, Food Service & Hospitality markets where cleanliness, durability, Anti-Bacterial & Anti-Microbial features are preferred or required.

SafeWalls™ are protected with BrandArmor's proprietary polymer finish which assures a long lasting, color fast & easily cleaned surface that allows for clean, bright & rich colors for murals and patterns alike. Additionally, the BrandArmor® surface is naturally anti-bacterial & has been manufactured with active anti-microbials that inhibits the growth of 99.9% of microbes on the surface.

- **Anti-Bacterial & Anti-Microbial**

SafeWalls™ are made with antimicrobials that are incorporated throughout the product & do not wear out, while inhibiting the growth of 99.9% of microbes*.

- **Cleaners & Bleach**

SafeWalls™ can stand up to the harshest cleaning products & is also graffiti resistant, even sharpies wipe off.

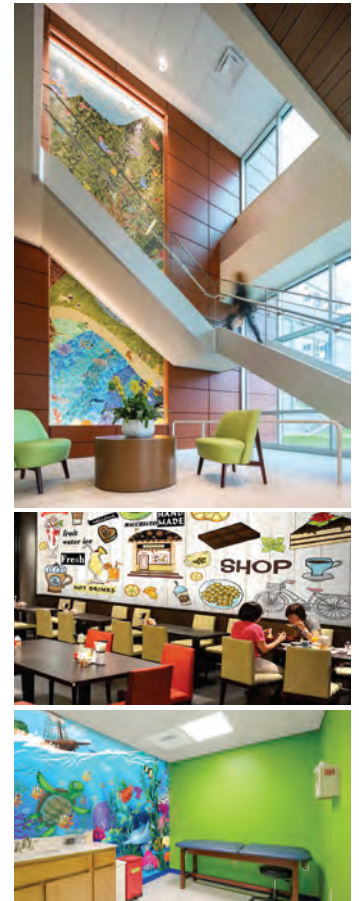

- **Fire & Smoke**

SafeWalls™ does not burn or support combustion, making it one of the safest materials designed for interiors*.

- **Mold, Mildew & Bacteria**

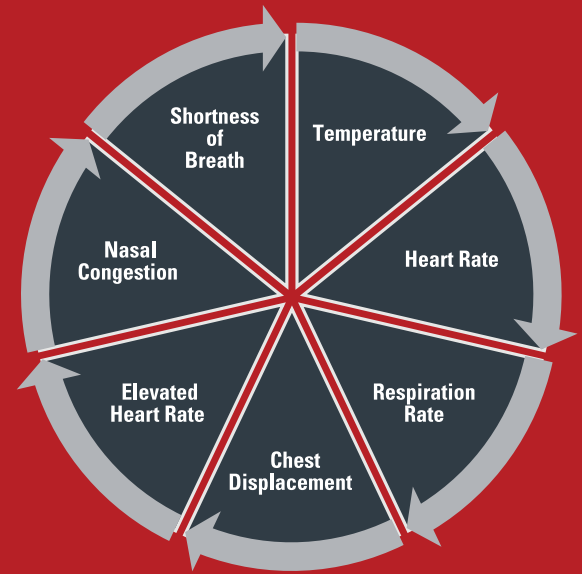

Bacteria does not degrade SafeWalls™, nor does the film provide nutrients to assist bacterial growth*.

***Independent Laboratory Certifications:**
Fired Rated - ASTM E84 Class A
Antimicrobial - ISO 22186

EARLY DETECTION, LESS INFECTION.

SymptomSense™ is fast, easy, & versatile health screening & metal detection.

- + Remote Health Monitoring**
Use location-specific scans to identify regional trends of individuals testing "positive" for correlated symptoms.
- + Network Ready**
Product is off-the-shelf ready, & interconnected to mesh-network to collect & exchange critical data securely & efficiently at each site & their regional authorities.
- + SymptomSense™ Dashboard**
Real-time sensor data captured on secure system-of-record, & auto-mapped to customized interactive dashboard at user-friendly portal for monitoring by credentialed stakeholders.
- + Reports & Analytics**
Determine which locations & time-of-day, frequently report positive scans to control the risk of spreading potential illnesses.
